GERONTOLOGY

IMRE SEMSEI PhD

Faculty of Health

University of Debrecen

Hungary
1. Basics of Gerontology

2-3. Gerontology in the mirror of statistics
   I. Aging process of the society
   II. Trends in mortality

4. Systemic approach of gerontology
OUTLINE

5. Biogerontology: the basics

6. Biogerontology: aging theories

7. Biogerontology: experimental gerontology

8. Biogerontology: aging and diseases
9.1. Geriatrics I: Examination
9.2. Geriatrics: II:
9.3. Geriatrics III:
9.4. Geriatrics IV:
9.5. Geriatrics V:
9.6. Geriatrics VI:
10. Gerontopsichology

11. Prevention and Aging

12. Possibilities of the slowing down of the aging process
BOOK

GERONTOLOGY

Editor-in-Chief
IMRE SEMSEI PhD
Contents

I. Basics of Gerontology

- Introduction
- I. 1. Basic knowledge (Imre Semsei PhD)
  - I. 1. 1. Basic terms
  - I. 1. 2. The basics
    - II. 1. 2. 1. Characteristics of the aging process
    - II. 1. 2. 2. Basic factors of the aging process
- I. 2. Gerontology in the mirror of statistics
  - I. 2. 1. Age distribution and parameters of the aging process of the society (András Paksy PhD)
  - I. 2. 2. Demographic characters of the aging population (Peter Jozan PhD)
- I. 3. Systematic approach and the practice of gerontology (Prof. Laszlo Ivan MD)
II. Biogerontology

II. 1. Basics of biogerontology (Imre Semsei PhD)

II. 2. Theoretical gerontology (Imre Semsei PhD)
   - II. 2. 1. Aging theories
   - II. 2. 2. Unified theory of aging

II. 3. Experimental gerontology
   - II. 3. 1. Short history of Hungarian gerontology (Imre Semsei PhD)
   - II. 3. 2. Directions of experimental gerontology (Imre Semsei PhD)
   - II. 3. 3. Body mass, body composition and energetic processes: alterations with age (Prof. Miklos Szekely MD, Erika Petervari MD, Marta Balasko MD)
   - II. 3. 4. Changes of proteins with age (Prof. Sataro Goto MD)
   - II. 3. 5. Aging and genetics (Imre Semsei PhD)
     - II. 3. 5. 1. Genetic determination
     - II. 3. 5. 2. Changes in gene expression
II.4. Geriatrics

II.4.1. Aging and diseases (Imre Semsei PhD)

II.4.2. Examination of elderly (Balint Boga MD)

II.4.3. Changes with age, diseases and handlings

- II. 4.1. 1. Alterations and diseases of the nervous system (Judit Zsuga MD, Prof. Laszlo Csiba MD)
- III 4.1. 2. Changes and diseases of the cardiovascular system (Prof. Bela Szekacs MD)
- II. 4.1. 3. Aging of the immune system (Prof. Gyula Bako MD)
- II. 4.1. 4. Characters of the endocrine-metabolic system in old age (Prof. Laszlo Gero MD)
- II. 4.1. 5. Effect of age on pulmonary system and its diseases (Lilla Tamasi MD, Gyorgy Losonczy MD, Prof. Pal Magyar MD)
- II. 4.1. 6. Age related alterations of the Bone-Joints-Cartilage (Prof. Peter Lakatos MD)
- II. 4.1. 7. Gastro-enterological diseases in old age (Prof. Pal Miheller MD)
- II. 4.1. 8. Aging of skin (Prof. Iren Horkay MD)
II. 4. Geriatrics

- II. 4.1. 9. Problems with the eyes in old age (Prof. Lajos Kolozsvari MD)
- II. 4.1. 10. Diseases of Ear-Nose-Larinxs in old age (Tibor Nagy MD)
- II. 4.1. 11. Vertigo in elderly (Agnes Szirmai MD, Dr. Marianna Küstel MD)
- II. 4.1. 12. Diseases of kidney and old age (Janos Szegedi MD)
- II. 4.1. 13. Changes in Mouth, Chin bones and teeth with age (Prof. Mihaly Orosz MD, Pal Fejérdy MD, Peter Hermann MD)
- II. 4.1. 14. Discrepancies and diseases of blood genesis in old age (Judit Demeter MD, Prof. Katalin Balassa MD)
- II. 4.1. 15. Infectious diseases in old age (Prof. Ferenc Rozgonyi MD, Andrea Horvath MD)
- II. 4.1. 16. Preoperative surgical anesthesia in old age (Katalin Darvas MD)
- II. 4.1. 17. Geriatric surgery and traumatology (Geza Papp MD)

III. 4.4. Aspect of Medication in Old Age (Prof. Gyula Bako MD)
III. Psychological gerontology

III. 1. Gerontopsichology
- III.1.1. Approaches of Complex Attitudes Connected to Elderly (P. Molnar MD)
- III.1.2. Positive Models of Aging in Respects of Behavioral and Health-psychological Approaches (Gy. Pek PhD)

III. 2. Gerontopsychiatry
- III. 2. 1. Depression and distress in old age (Aniko Egerhazi MD)
- III. 2. 2. Psychiatrics of old age (Aniko Egerhazi MD)
IV. Society gerontology

IV. 1. Sociopolitical gerontology

- IV.1.1. Graying Societies (g. Fabian PhD)
- IV.1.2. Dimensions of Sociopolitics of Aging
- IV.1.3. Social Work with the Old People (L. Horvath PhD)
  - IV. 3. 4. 2. Care of moribund with hospice and palliative care (Ellen Csikai PhD)
IV. Society gerontology

IV.1.2. Social gerontology

-IV.2.1. Care and Treatment
  - IV. 2. 1. 1. Care of demented elderly (Erzsebet Csernathne Karandi)
  - IV. 2. 1. 2. Psycho-social methods in demencia care (S. Jean Szilagyi)
  - IV. 2. 1. 3. Immobilization syndrome (Andrea Ruszwurm MD)

  - IV. 2. 2. Conduction of life
    - IV. 2. 2. 1. Development or setback (Zsuzsanna HorvathVarga)
    - IV. 2. 2. 2. Nutrition (Prof. Maria Figler MD)

  - IV. 2. 3. Rehabilitation
    - IV. 2. 3. 1. Goals and point of views in geriatric rehabilitation (Judit Huszar MD)
    - IV. 2. 3. 2. Basic principles of geriatric rehabilitation of locomotors disorders (Bela Halmos MD)

  - IV. 2. 4. Gero-thanatology and hospice
    - IV. 3. 4. 1. Aspects of the elderly curing with respects to gero-thanatology and hospice (Prof. Laszlo Ivan MD)
V. Prevention – possibilities of the slowing down of the aging process

V. 1. Theoretical possibilities (Imre Semsei PhD)

V. 2. Prevention and aging
  – V. 2. 1. Old age and prevention (Istvan Toth MD)
  – V. 2. 2. Prevention in geriatrics – responsibility of the career (Zsuzsanna Hegyi)

V. 3. Role of physical activity in slowing down of aging
  – V. 3. 1. Physical training and aging (Dr. Radák Zsolt)
  – V. 3. 2. Physical activity and sports in old age (Erzsebet Petrika PhD)
  – V. 3. 3. Effects of physical training forms of Far-East in old age (Andras Milo)
  – V.3.4. Role of Yoga in Prevention (M. Oberkamp MD)

V. 4. Possibilities of diets
  – V. 4. 1. Role of nutrition in prevention of the aging process (Prof. Maria Figler MD)
  – V. 4. 2. Role of herbs in prevention of the aging process (Prof. Agnes Kery MD)
  – Dietotherapy of Ayurveda (I. Szalkai MD)

V. 5. Relationships of our thinking and aging
  – V. 5. 1. Aging and continuous learning in adult age (Aniko Kalman PhD)
  – V.5.2.Geronto-education (J. Jaszbereny PhD)
